

PRESS RELEASE**TLS Proceeds International Growth with a New Name**

TLS Logistics is launching International Road and Intermodal Transport services at the helm of Gülşah Çehreli.

TLS Logistics, one of the pioneers of the logistics industry since 2000, fused its know-how and experience in inland transport services, forming a substantial part of its current turnover, with International Road and Intermodal Transport services as of June 2021 and assigned Gülşah Çehreli, an experienced name in the industry, as International Road and Intermodal Transport Director in line with its new management model aiming at an ever-growing, more effective and efficient sustainability.

Gülşah Çehreli stated “we will offer uninterrupted International Road and Intermodal Transport services, either on full or partial terms, with our experienced staff and wide network to the entire European, Balkan and CIS companies” and added “we have already started catering to our customers’ needs in the European traffic with Intermodal transport mode which provides advantage by mitigating damage risks and reducing labor costs thanks to its environmentally friendly and contact-free character that has come to the fore as an alternative due to the issues experienced at border gates based upon pandemic”. Çehreli also mentioned that they were offering transport advantages to several points around Europe with railway connection from Turkey or with RO-RO connections through seaway.

Gülşah Çehreli has graduated from the Philosophy Department of METU in 2003. Having started her career in Foreign Trade, she served as Logistics Coordinator at an international company and she has 17-years of experience first in International Road Transport and then in Intermodal Transport.
