TLS Logistics Increases Its Market Share In Airfreight In The First Quarter.

TLS Logistics steadily increases its market share not only in land and sea transportation, but also in air transportation. With this steady increase, TLS Lojistik has become the favorite logistics business partner of the pharmaceutical industry as well as the technology industry.

TLS Logistics steadily increases its market share not only in land and sea transportation, but also in air transportation. With this steady increase, TLS Lojistik has become the favorite logistics business partner of the pharmaceutical industry as well as the technology industry.

TLS Logistics, which has been on a steady growth path since the day it was founded, is also among the ambitious companies of the logistics sector in the field of air transportation. TLS Logistics increased its air freight volume to an average of 350 tons per month in the first quarter of 2013. In the second quarter, it is aimed to increase the monthly air transportation volume to 450 tons.

TLS Logistics reached this volume with the transportation of export goods to Russia, Turkic republics, South America and West Africa. The company loads 150 tons per month on the Shenzhen - London, Shanghai - Andorra and New York - Almaty tracks. The fact that it provides door-to-door service to technology companies in cross air transportation, which they can perform between any two points in the world, provides added value for the customer.

TLS Logistics is among the members of IATA.

Expert Transporter for Every Sector

TLS Logistics continues to add new customers from the pharmaceutical industry to its portfolio. Pharmaceutical products and raw materials, which need to be transported very meticulously due to their sensitive contents and unique characteristics, are transported to the delivery point under the most suitable conditions with TLS Lojistik' extensive knowledge and experience, and storage services are also offered under the same optimum conditions when necessary.
