TLS LOGISTICS INVESTMENTS IN THE FIRST MONTH OF THE YEAR STARTED

Continuing its investments in line with its growth targets, TLS Logistics invested 45 million TL in its vehicle fleet in the first month of 2022 after its 12th warehouse investment in December, adding 30 more environmentally and driver-friendly vehicles with the latest technology Euro 6 engines to its fleet.

Leaving behind 22 years, TLS Logistics, which is among the leading logistics providers of the sector with more than 60 distribution operation centers and offices abroad, has added 30 more vehicles to its fleet. Environmental and driver-friendly vehicles with the latest technology Euro 6 engines will provide uninterrupted service in all Turkey operations.

TLS Logistics, General Manager of Transportation Services Sinan UNAL; Stating that they started 2022 with their investments, "With this fleet investment, which supports our environmental approach, our total number of self-owned vehicles has approached 400.

As a strategic business partner that always creates added value, our aim is to open the horizon of our industry today and in the future, as in the past. In this context, our efforts to rejuvenate and expand our fleet will continue throughout the year." said.
